Mineral Resource Development
and Reclamation Program

RE: Silver Reef "Mine", ACT/053/002, Washington County, Utah

Our meeting of July 8, 1987, developed the following list of activities requisite to initiate reclamation of the above captioned property:

1. Establish status of bond forfeiture proceedings with Barbara Roberts: Frank Jensen.
2. Acquire and review Abandoned Mine Land forms for land owner agreement for reclamation and access to site: Dave Wham.
3. Establish ownership of mine equipment; is it "mineral" or "surface" owner? (To be assigned)
4. Discuss with Barbara Roberts: Can Division of Oil, Gas and Mining Forfeit capital assets of mineral owner to use salvage proceeds to supplement bond forfeiture money in reclamation? Frank Jensen will discuss with Barbara Roberts and give her a photographic overview of the site configuration.
5. Site may be an RCRA site (no action at this time).
6. Availability of new stereo air photography: Dave Wham and Frank Jensen will investigate federal sources.
7. Results of "geochemical sampling": Dave Wham will contact the Department of Health.
8. Field check for development of prioritized reclamation schedule. (To be assigned)
